SCIATIC PAIN ELIMINATION SYSTEM

Sciatic Pain Elimination System

A Breakthrough in Spinal Restoration

What is the Sciatic Pain Elimination System?

This system is centered on a methodical process of decompressing your spine and eliminating the pressure on the nerve(s) that is causing your pain.

The path to pain relief is often an arduous one and can be extremely different for each individual.

The objective is to uniquely customize your path through this process and teach you how to maintain the success.

This system is designed to help you avoid the need for surgery or other invasive procedures.

What You Can Expect!

You will spend valuable time with the ONLY expert specialist for non-surgical spinal decompression in Athens; including access to the areas ONLY FDA approved equipment for this treatment.

You will receive progress evaluations throughout your care to accurately track your progress and ensure that everything possible is being done to properly treat your condition.

You will get answers to your questions!

You will continue to learn and understand your condition. I believe the more you are educated about it, the more likely you will be to comply with the treatment recommendations and the better chance we will have at successfully restoring your spinal health.

This is your own completely individualized treatment plan customized for your specific needs. This is NOT a cookie cutter approach.

You will be mentored through the appropriate lifestyle changes necessary to support the success we have with your treatment.

If you'd like, we will arrange for you to speak directly with others that have experienced this breakthrough, eliminated their pain and restored their spinal health.

The strategic plan that we have designed for you is based on your short and long-term pain relief goals, combined with the unique aspects of your day-to-day lifestyle.

The initial phase (acute phase) of your program is designed to help eliminate as much of your pain as quickly as possible. Then we focus on the rehabilitation phase of this system. Keep in mind; everybody will progress through these phases differently. Not to worry, we will help you keep your "eye on the prize" so to speak to make the most out of your investment to recover your health.

During your 8 – 12 weeks (or more depending on your case) you will receive a combination of one-on-one time with your Sciatic Specialist doctors to walk you through the acute and rehab phase of your treatment, as well as workshops and videos designed to support your home care efforts for ongoing success with your health.

Once you have completed your acute and rehab phases of care, we will then discuss a recommended plan of action specific to your needs for maintaining your success. This is called the maintenance phase of care and is completely separate from the acute/rehab phase.

Here are some of the things that we will cover during treatment.

- Helping your family understand your condition and increase the home care support that you will need.
- Appropriate exercise at the appropriate time.
- Proper ergonomics for working, driving and resting.
- Setting short & long-term health goals.
- Weight issues that may be contributing to your condition.
- Proper support devices that will help throughout the process.

- Access to other valuable providers with different therapeutic specialties.
- Proper sleep support systems for your back condition.
- Understanding proper hydration for **your** body.
- How other lifestyle choices you make are affecting your condition.

Now if you qualify for this program you will have over an 85% chance of success at having your condition under control and getting your freedoms back. ***This is a significantly better percentage than surgery outcomes.***

What this system is NOT!

This system is not for everyone. Not every candidate is accepted. This is not an "Easy Button." You cannot treat this like your car that you drop off at the shop and tell them to fix it and give it back to you.

This is not an overnight fix. Health and healing take time, especially when there has been a cumulative effect of wear and tear on your body.

If you are accepted into this program you will have a clear, concise, unbiased, and objective understanding of your condition, and all of the different types of treatment options available. With this system, we will be responsible to you, not for you.

Exclusive Access!

Our doctors are sought after professionals with extensive experience and success in Pain Elimination and Spinal Health Restoration. Once you commit to your program, you will have exclusive direct contact with our doctors so that you can have your questions answered. Additionally, you will have immediate access to their list of professional contacts for the most brilliant and talented therapists in the area with extensive knowledge of our program and how to help support our efforts. You will also have available discounts for some additional products and services.

Additional items you may need to support your success with this system.

Once we've initiated your individual treatment plan, you will need a very specific orthopedic support to help keep you stable after treatments and throughout the process.

Depending on the specifics of your unique case and should the need arise; Our doctors may also suggest a variety of different supportive therapies. Most of these service providers are completely booked unless you are referred to them. We will do our best to let you know what kind of costs to expect with these products or services. When you want the very best, it is always a good idea to have a network of trusted resources.

Terms and Conditions to Qualify for This Program

- You have a severe lower back condition that you are ready to eliminate.
- You are ready to learn why you have this pain and where it is coming from.
- You are willing to take an active roll in the process.
- You realize that this is not a "Done for You" program.
- You are ready to take control of your health.
- You are willing to be held accountable.
- You are coachable.
- You are ready to learn how to prevent these problems from returning
- You must be accurate and timely in reporting your condition, symptoms, and your improvements.
- You understand that this is an investment in your health.
- You must be 100% motivated to make the lifestyle changes necessary to support the efforts we make to eliminate your pain and regain your health.

If you can agree to these terms, we will be well on our way to helping you accomplish your health restoration goals.

Sciatic Pain Elimination System Costs

Because every individual case can vary greatly as to the treatment needs for the specific conditions, treatment may be anywhere between 20 - 40 sessions and therefore costs can also vary.

Most conditions will be able to achieve the desired results with 25 - 30 sessions of non-surgical spinal decompression. These sessions will also include chiropractic adjustments and physiotherapies.

Approximately half way through your care you will also have some guided rehabilitation that will entail therapeutic exercises, neuro-muscular rehabilitation as well as directions for beginning your home care regimen.

With all of this being said to this point, you can see how each case can vary a great deal. The best way to summarize the costs is that it can average between $200 - $300/ week, and we do have a variety of different payment options to help you get the treatment you need.

We have done this for a very long time. Unfortunately, one thing we know is that insurance companies do not pay for spinal decompression. However, your insurance benefits do sometimes cover chiropractic treatments and therapies as well as progress evaluations. We will of course verify and evaluate each individuals policy and for those policies with qualifying benefits we will handle all of the billing and filing for you.

Referral Reward Program

We are always doing our best to help as many people with these types of conditions as possible. We feel that when you have the success we are used to seeing, that you will want to send us your friends, family, and colleagues. For every person that you send us that qualifies for care and becomes a patient here, we will send you out on the town with a $100 gift certificate to one of our many incredible local Athens restaurants! How about that for a nice reward!

Our Promise

We are confident in our ability to assess your condition and create a personalized program for you to eliminate your pain using our proven systems. However, it is nearly impossible to make any guarantees as each individual care can vary so greatly. What we do promise is that you will have a 100% understanding of your condition and ALL the potential options for treatment, even if that means referring you out to another provider. We also promise to give you our 100% best effort to help you avoid the need for medications and more invasive things like injections or surgery.
